## PRESIDENT'S MESSAGE

*Pulkit Desai*

Hoffman Beach opened Saturday June 19th for swimming, planned fun activities and day dreaming, and we are looking forward to seeing you all at the beach this season! Please come and enjoy, keeping in mind that access to the beach is on a first come first serve basis. Unfortunately, if we have too many people at the beach, some members will have to be turned away. Life is finally returning to normal and we are all still adjusting, so please be patient and work with our new beach staff. We want to make this an enjoyable experience for everyone. All beach rules are listed on our website and will also be posted at the beach. <https://lake-parsippany.org/sys/website/?pagelid=18176> You will also find information there on Clubs, Activities, Sports, Rentals, Rules, etc...So, join in the fun! If you still have questions you can send them in via Contact Us but most everything is there for you to read.

I mentioned previously that this year there is a widespread shortage of lifeguards, for many reasons. We are very fortunate to have some wonderful lifeguards; although still not enough

for what we need, for this reason and others, we can only focus on the day to day operations of one beach, Hoffman Beach. The Board is looking into options to open the other beaches for sunbathing only as well as offering members the possibility to rent the beach for special occasions. We will announce this via our website, email and our Facebook page. Please be sure to join our page, its another way we can get information out to everyone!.

The LPPOA Clubhouse is opened again this year for rent. It's fabulous, picturesque and affordable. Please go to our website at this link to get all the information you need. Lake Parsippany Property Owners Association - Clubhouse Rental ([lake-parsippany.org](https://lake-parsippany.org))

The Membership Committee has distributed over 700 membership badges, parking tags and boat tags, over the last two weeks, with more to go. The dates for future distribution will be announced shortly. This was a monumental effort by the Membership Committee and some community volunteers who spent many late

nights getting everything ready. This is the first time in the LPPOA history that we have 2200 homes and are distributing over 8000 badges. I'd like to thank the board members who helped with this effort as well as the membership committee and community volunteers, without whom we would not be successful. I'd like to recognize them and to say thank to our community members for being patient with the occasional glitches during badge pickup. It was wonderful to meet you all and we all appreciate your patience. Badge distribution will continue

after July 4th weekend. We wish we can do it before but we just don't have enough volunteers due to the holiday weekend. We will announce many dates in July for pickups at the Clubhouse. Anyone in the community interested in helping, please reach out to us via CONTACT US. However, please remember that you do not have to wait to enjoy the lake and the beach! Please just bring evidence of your paid membership and you can enjoy!

While life is returning to normal for most people the Board is still exercising common sense

measures when it comes to everyone's safety by holding ZOOM meetings. We are looking to see if we can start having Board meetings in the Clubhouse and to also be able to accommodate those who want to attend via Zoom. We are working out some technical difficulties, and since the Clubhouse normally has a 100 person capacity and we have now close to 1700 members, this will understandably take time to figure out.

I am continuing my monthly A.M.A. (Ask Me Anything) sessions and I encourage members to log in, and ask questions of me or any member of the Board who is present. This affords everyone who joins the opportunity to ask questions and the weigh in on current activities. Please get involved and join us.

Elections are coming and information will be

posted on our Facebook page, website, News and Views and postal mail. Please look for this information and get involved in our community. Remember that all positions on the LPPOA are volunteer and require many hours of personal investment. If you feel you can give the time needed to become actively involved, I encourage you to run for board positions!

In closing you have heard me reminding everyone that the board members are all volunteers, with families and full time jobs, and we do not get paid. We do this for you, for our community. Countless hours go into doing things that you do not even see. Some things will take time to change and some changes are apparent, so while we will take your criticisms please keep in mind what the board members are doing for you. Alone we can do little, together we can do so much! Volunteer and help us all make a difference.

## TEEN CHILL OUT

The LPPOA Youth Committee is proud to share that we held our first event on Monday, June 28th. Despite the fact that we put this event together rather quickly, we are very pleased with the turnout! The event was the Teen Chill Out and it took place from 7-8:30pm at Johnson's Beach. The teens who attended had the opportunity to enjoy some ice cream (which was kindly donated by members of the youth committee) while getting to know other teens who are members of our lake community. During

the event, the teens chatted, played a game, and discussed events for teens that they would like to see take place within our community. The Youth Committee is hoping to see members grow and more importantly membership consisting of the teens in our community. If you are an LPPOA teen and would like to participate please reach out to EMAIL as we would love to have more members. For teens, being a member is a great way to earn some volunteer hours as well as leadership experience! Also,

if you do not wish to be a member but would like to participate in Youth Committee Events continue to keep a lookout for LPPOA emails, posts on the LPPOA Facebook page, and flyers posted in the News and Views for upcoming activities as well as volunteer opportunities.

## TO FIND AN ENDLESS SUMMER

It's that time of year—the breeze picks up, the temperature gets warmer, and the sailboats start coming out of their hibernation along with the osprey and spring flowers, the lake screams AH! Summer's right around the corner, time to stash the phones and pull up your sails.

Yes! This is the moment you've been craving during your busy week of meetings and e-mails. AH! The lake. You sail along gently in a light morning breeze. You kick back in the cockpit and put some sunblock on your nose and your spouse's neck. For an hour you relax, you talk, or not. You enjoy the breeze, the sun, the sound of the waves, the rocking motion.

I need a few days of this, really, a week, you say. Wouldn't it be great if we could sail like this for a month or better yet a year? Honey, let's run away to the islands. Ah, just the thought of another great summer at the lake sailing, relaxing, being with friends. An endless summer found.

**NOT JUST SAILING** Sailing is not just a water sport. We have social events also.

---

I want to thank everyone that helped me get the beach set up for opening this summer. If it wasn't for these dedicated members, I'm not sure how I would have gotten it done. Debbie Thore provided guidance to our new managers Rachael and Amanda. The docks and slide were set out under the guidance of Bill Sempier. His knowledge of getting the beaches set up was

invaluable to getting it done. Thanks to the many volunteers. Mike Crystal, Joe Stella, John Scrivens, Adeel Fudda, Mark Franklin, Michael Fabricante, Brian Kavinski, Sebastian Ostolaza, Mark Yarussi, Craig May and Mike Mulligan. Bill was able to get the circulator operating in time for opening day.

Thank you all.

Thank you to all who attended and we look forward to creating more of these wonderful community memories in the future.

## HISTORY OF LAKES APPRECIATION MONTH

July is Lakes Appreciation Month, a nationwide effort to acknowledge and appreciate the vital role water plays in our lives. It all started with a few individuals and a common goal.

The North American Lake Management Society (NALMS) was founded in Portland, Maine in 1980 as an organization with membership open to both professionals and citizens interested in applied lake management. One of the primary focuses of the organization in its early years was the funding of Section 314 of the Clean Water Act, the Clean Lakes Program. The Clean Lakes Program provided funds, through the states, to clean up individual lakes.

In July 1998, NALMS launched Lakes Appreciation Week to focus attention on lakes and reservoirs, their unique value as well as the management issues they face.

By 2003, Lakes Appreciation Week became Lakes Appreciation Month, held each July.

In July 2019, Governor Phil Murphy proclaimed July as Lakes Appreciation Month in New Jersey.

Clean and healthy lakes, rivers, and streams not only offer endless recreational opportunities, but provide us with drinking water, energy, and irrigation. They also serve as natural wildlife habitats for many plant and animal species.

### *Time capsule (Cont.)*

We owe a lot to our freshwater communities, which are a significant life resource. However, that life resource is finite.

- 3% of our planet's water is fresh water. That includes lakes, rivers, glaciers and polar ice caps.
- 2.5% of the earth's fresh water is unavailable: locked up in glaciers, polar ice caps, atmosphere, and soil; highly polluted; or lies too far under the earth's surface to be extracted at an affordable cost.
- 0.5% of the earth's water is available fresh water.

Rehabilitating and protecting these environments is crucial to the quality of our communities and the benefit of future generations.

The Lake Parsippany Property Owners Association is a proud member of the New Jersey Coalition of Lake Associations. Together with lake community associations, individuals, municipality officials, professionals, and specialty organizations, we are dedicated to protecting and preserving our lakes and ponds.

The LPPOA Darts team hosted the championship match early June but unfortunately fell short to Cedar Lake. This was Coach Rob Gibilisco's rookie season at the helm and already he is planning the team's off season conditioning program and game time strategy. Congratulations go out to the team for a superb season and making it to the finals. Brendan "double out" Higgins was awarded the comeback player of the year award while Brian "special K" Kavinski and Kris Worthman earned all-league honors.

Please note that the schedule is posted on the LPPOA website.

## **THE BLOOD OF FLOWERS**

First there wasn't and then there was. Before God, no one was.

So begins Anita Amirrezvanis' book *The Blood of Flowers*.

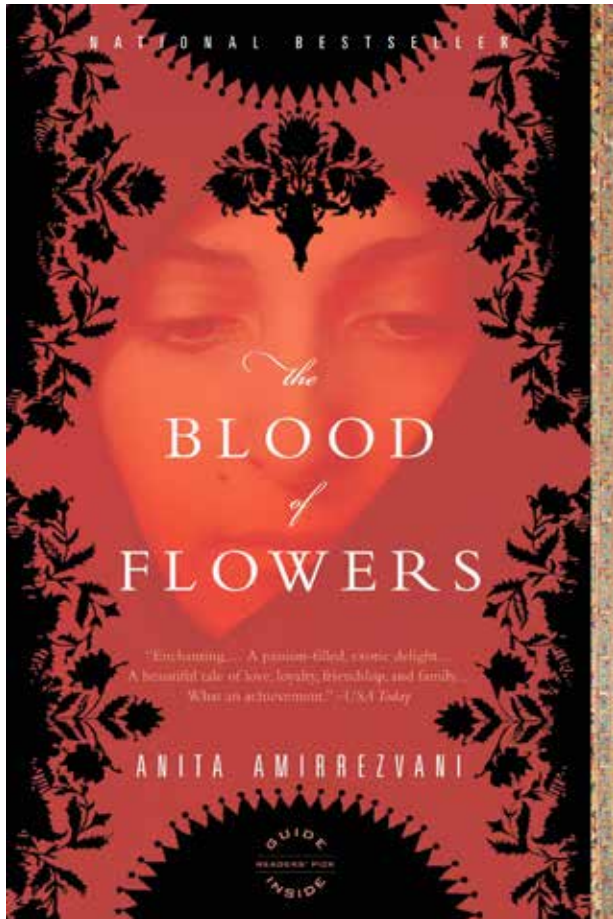

The author took 9 years to weave this fictional story that is interspersed with historical facts from 1620's Persia. The time and research are well worth it, we were immersed in the details. This time period among other things, was known for fine art and architecture under the rule of Shah Abbas the Great.

Carpet weaving had an especially important role at this time. And our young unnamed narrator has a curiosity about the carpet making process, from the plants that the dyes come from, how to achieve certain hues, to color combinations, intricate designs and tightness of knots. If you have ever done latch-hook, you'll have a fractional idea of how to create a Persian carpet!

Per the Authors Note, the main character was deliberately left unnamed, "in tribute to the anonymous artisans of Iran".

The main character through a sad event and perhaps even because of a comet, (the people of the time believed comets brought calamities and chief astronomers predicted these events in almanacs) had to leave her village and travel

*Book Club (Cont.)*

on camel to the capital city of Isfahan. Fun fact, camels were not allowed inside the city!

The bustling, brightly colored city of Isfahan opens up her world and nurtures her natural artistic gift for carpet design and making. Our hero goes through her journey of growth and

maturity in very difficult ways, interspersed with small pleasures, but details of the way of life at the time is finely chronicled in this tale. We had a lot to talk about and wonder how much has changed for the women in that part of the world. One thing is for certain, you will never look at a hand-made carpet the same way again.

'My back ached, my limbs were stiff, and I had not slept enough for a month. I thought about all the labor and suffering that were hidden beneath a carpet, starting with materials. Vast fields of flowers had to be murdered for their dye, innocent worms boiled alive for their silk—and what about knotters?

Must we sacrifice ourselves for the sake of rugs? '...All our labors were in service of beauty, but sometimes it seemed as if every thread in a carpet had been dipped in the blood of flowers.'

Page 350

Please google 'images for Isfahan ' for pictures of this city, The Bridge of 33 Arches alone is incredible. Here is a link to get a feel. <https://www.gettyimages.com/photos/isfahan>

Please read the book and let us know what you think! We meet the third Tuesday of the month.

## BUILDER'S CORNER

To improve our 3d printing setting and technique for model yachts, we decided a good start would be to design and print a "footy". A "footy" is a class of model yacht that has a only one class rule. The hull and keel must fit inside a box that is one foot long, one foot deep and 1/2 foot wide. Hence the name "footy".

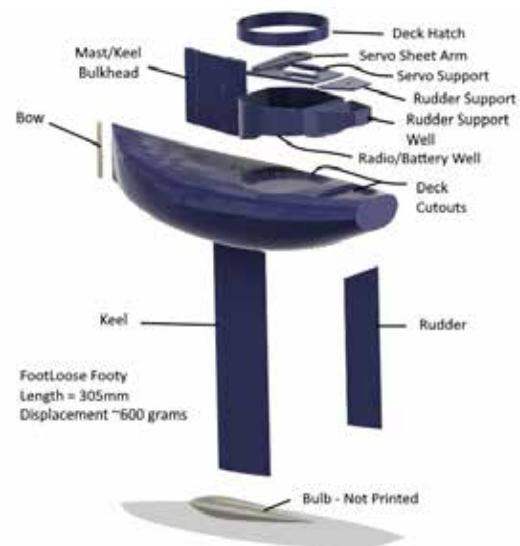

To create the hull, we used our Delftship model of our one meter Liberty. We compressed it from one meter to one foot long. To get a reasonable displacement for this size model, we scaled the beam and depth of the hull for a displacement of 650 grams.

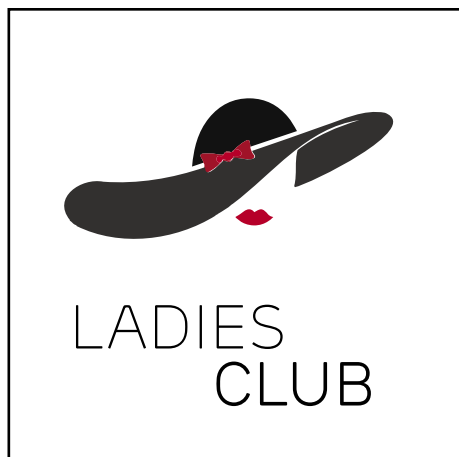

We exported that data and created a printable 3d model. It took 2 hours to print the hull. Other parts including internals took another 3 to 4 hours to complete.

So, if you are interested, NOW is the time to reach out to us. Joining us is FREE with your lake membership. You can join us online when you re-

up your lake membership. We are just starting a new season. And we usually can find a boat you can borrow it you want to give it a try.

## LIVE FROM THE PORCH

I was walking around the lake and this scene caught my attention. It was a band playing beautiful song live from the front yard. For few minutes I was transported out of Parsippany. The music was well coordinated and right on the note. The place turned into a vacation destination and my heart filed with joy. Thanks to the band for making my day while making Lake Parsippany festive and lively.

## THANKS, AND BEST OF LUCK

There are two families that if you have been a part of the lake, all you need to hear is a last name and you can think of all they have contributed to the lake for many years. Many of us were fortunate to call both families good friends. Sadly, both will be leaving our community. Both families have given so much to the lake and we will miss them for sure.

The first is Berardo/Herzog. The Herzog family has been so much a part of the lake since I can't even remember. Kathleen Herzog Berardo grew up on the lake along with her brothers and sisters. Bob Herzog, Kathleen's dad was one of the founding members of the swim team. To this day the team still presents the Bob Herzog award to the person in recognition for time and help contributions. Kathleen was a lifeguard for many years. The stories she could tell or was a

part of are great. Kathleen was head of the swim team parents for years. She started the Burgers on the beach fundraising. Phil served on many committees and was our Treasurer for many years.

Doreen and Randy Vyskocil also long-time members have similar contribution stories. Doreen took over as the head of the swim team parents when Kathleen stepped down. Both Doreen and Randy participated in many sports for Hub Lakes: softball, volleyball, horseshoes, darts and of course swimming. Randy was an integral part of the men's club heading up such events as the super bowl party. Randy served as a district Rep on the board.

Both instilled a great sense of community as all of their children 7 combined were lifeguards, swim coach and or members of the swim team.

Please wish them well as they start the next chapter in their lives but always taking a part of Lake Parsippany with them.
